

**Kömmerring Chemische Fabrik GmbH is certified
according to ISO 9001, ISO 14001 and OHSAS 18001**

For more than 100 years Kömmerring has stood for Quality and high quality adhesive and sealant systems. Since early 1995, successive certification audits according to ISO 9001 have reaffirmed this. Kömmerring Chemische Fabrik GmbH was therefore one of the first producers of adhesives and sealants to be certified according to the internationally recognised standard for quality management.

*José C. Houssa, Managing Director of Kömmerring Chemie (sitting)
and Norbert Pogrzeba, Head of Quality and Environmental Management Center.*

In subsequent years, the management system has been continuously expanded to incorporate environmental management and occupational safety, and in 2005 the complete management systems were certified through the TÜV Rheinland Group. Thus, since late 2005 Kömmerring Chemische Fabrik GmbH is one of the few worldwide manufacturers of adhesives and sealants to fulfill all of the requirements of DIN EN ISO 9001:2000 (quality management), DIN EN ISO 14001:2004 (environmental management) and OHSAS 18001 (occupational safety) and who is certified according to these standards.

**PRESSEINFORMATION
PRESS RELEASE**

For Kömmerling and its employees, this comprehensive certification represents another milestone in their continuing bid for customer satisfaction and environmentally responsible conduct. A process which will certainly be continued and extended in the future. **HS**
